SUMMARY

Web Developer and final-year Computer Science student at Iqra University Karachi, skilled in building responsive, user-friendly web applications using React.js, Next.js, JavaScript, HTML and CSS, with backend development in Python (Django/FastAPI). Comfortable working with SQL and NoSQL databases (SQL Server, PostgreSQL, MongoDB) and integrating AI APIs into web apps. A quick learner and team player, seeking a Web Developer role or internship to contribute to real-world projects and grow professionally.

SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Next.js, Responsive Web Design
Backend: Python, Django, FastAPI, RESTful APIs
Databases: MongoDB, PostgreSQL, SQL Server, SQLite
Programming Languages: JavaScript, Python, C++, Java
Tools: Git & GitHub, VS Code, Figma
Soft Skills: Problem Solving, Teamwork, Communication, Quick Learner

Professional EXPERIENCE

TalentVerify AI – *Final Year Project (AI Skill Verification Portal)* — 2026

- Developed a full-stack web portal that assesses candidates' skills and issues QR-verifiable certificates.
- Developed with React (Vite) frontend, Django backend and MongoDB; supports Light/Dark theme.
- Integrated an AI API to automatically generate personalized assessments from each candidate's CV.
- Built an online coding assessment module with automated scoring and proctoring.
- Implemented secure user registration and authentication to prevent duplicate accounts.

Suthar Community Pakistan Website — Next.js

- Building the official community website using Next.js, with multi-page structure and dedicated heritage pages.
- Created custom content sections such as Community Heritage and Traditional Tools of Our Ancestors.

University Projects

SkillQuest AI – *Career Path & Skill Gap Planner* — Python, SQL Server

- Built a career-path planning system using BFS, DFS and A* search with graph visualization and algorithm analytics.
- Developed a desktop GUI using Python (CustomTkinter) connected to a SQL Server database.

AI Smart Data Center Anomaly Detection — Scikit-learn

- Applied Machine Learning models to predict server workload and detect anomalies in data center performance.

LifeLink – Blood Donor Management System (PyQt5, SQLite)

- Developed a desktop application to manage blood donor records and quickly find donors by blood group.

Built the user interface with PyQt5 and stored data in a SQLite database with full add, update, search and delete features

Certifications

- **CS101: Introduction to Programming I** – Saylor Academy (Aug 2026)
- **Introduction to Cybersecurity Awareness** – HP LIFE (Aug 2026)
- **IT for Business Success** – HP LIFE (Aug 2026)

EDUCATION

IQRA UNIVERSITY MAIN CAMPUS KARACHI — **Karachi, Sindh**
BACHELOR OF COMPUTER SCIENCE — Oct 2022 – Feb2026
